CAREER OBJECTIVE

Full-stack developer with a frontend focus and a background in UI/UX design. Experienced in building and shipping web and mobile applications from the ground up. Looking for a role where design and engineering overlap.

EXPERIENCE

Fresh Electronic for Home Applications, Frontend Developer Intern

07/2025 – 08/2025

- Built and tested responsive UI components for internal web applications using React and Tailwind CSS.
- Collaborated with senior developers to implement layouts and maintain UI consistency across projects.
- Applied frontend best practices in a real-world setting, contributing to UI consistency and code quality.

EDUCATION

Business Information System - C.S,

2022 – 2026

Arab Academy for Science, Technology and Maritime Transport

SKILLS

Front-End

HTML5, CSS, JavaScript ES6+, TypeScript, React, React Native, Tailwind

Back-End

NodeJS, ExpressJS, PHP

Tools & Platforms

Git, Github, Supabase, Figma

Database

SQL server, MySQL, PostgreSQL

CERTIFICATES

UI/UX Design Program

National Telecommunication Institute (NTI)

PROJECTS

CarKit - AAST Graduation Project 

2025 – 2026

Egyptian automotive marketplace and services platform

Built as a monorepo with 4 subprojects: a React Native mobile app, Node/Express REST API (70+ endpoints), an admin web portal, and a driver/emergency portal — both web portals in React + Vite + Tailwind. Auth system with 7 user roles, PostgreSQL via Supabase, and an AI-powered product recommendation feature using Gemini API.

Car Rental Landing Page *, Responsive frontend web project*

A responsive car rental landing page built with React and Tailwind CSS. Rebuilt and upgraded with Framer Motion animations as a hands-on motion design learning project. Focused on clean UI, smooth interactions.

Pure Store - E-Commerce App *, React frontend web project*

A fully functional e-commerce web app built with React. Features product listing, cart management, and a clean responsive UI.

Workout & Diet App - UI/UX Case Study *, Figma · UX Research · NTI Graduation Project*

End-to-end UI/UX case study for a workout and diet mobile app. Covered user research, wireframing, prototyping, and high-fidelity Figma designs. Completed as a graduation project for the NTI UI/UX Design Program.
